		Length of Each Tutoring Session:	60 minutes
		Services Offered:	Special Education Services <input checked="" type="checkbox"/> Bilingual Instruction <input checked="" type="checkbox"/>

Program Description

The Kinetic Potential Scholars (KPS) Program is an innovative tutoring and youth development program that has been addressing the comprehensive needs of at-risk youth over the past two years. Founded upon the belief that every child has remarkable potential, KPS provides a roadmap for these students, the future KP Scholars, KPS matches each and every student with academic KP Tutors as well as Guidance and Career Mentors. KPS' goal for its students is three-fold: 1. Improve the Quality of Education- By recruiting its KP Tutors from America's top graduate universities in education-including those of Harvard, Penn, and Yale- KPS not only selects from a pool of highly-qualified instructors, but also brings on board individuals who are specifically committed to providing at-risk students with equal educational opportunities. KP Tutors lead 1:1 sessions and groups of 8-10 students for one hour sessions anywhere from 2-4 times a week in math/language arts. 2. Improve Student Motivation- Kineticville, KPS' cutting-edge virtual world, uses 3D video game technology, streaming digital video, and detailed avatar designs to drop students into a truly hands-on learning environment. In this virtual environment, students learn by doing and exploring, not simply by memorizing and reciting facts. The learning experience is designed to engage students as the most popular video games. 3. Provide More Individual Attention- Students struggling educationally need more attention both academically and socially. KPS creates an individualized portfolio for every one of its KP Scholars, outlining their unique academic, social, and professional goals. KPS believes that students need to not only understand what they are learning, but also how it relates to their own lives and career plans. KPS pairs every KP Scholar with up to five Mentors to help students prepare for their long-term goals and to become life-long learners.
